

Ceramic Metal Halide

Features:

- Excellent light quality
- Exceptional colour rendering and consistency
- Increased lamp life
- Lower maintenance requirements
- Reduced heat output
- Ideal for use with quality interior décors
- Significantly less power consumption than halogen equivalents

00953	CM-CITY T H15/UVS/728	140W	

Compact tubular CM-CITY lamp designed to combine high performance and energy efficiency with low operating costs for outdoor lighting. Energy savings typically 30% when compared to standard metal halide light sources.

Dual Metal Halide Lamps

Replacement lamps operating on either Mercury or HPS control gear

High Pressure Sodium HPS (SON) & Twin Arc HO Lamps
